

Kyrgyz Government approved Financial Agreement between Kyrgyzstan and the European Union on “Central Asian Research and Education Network” (CAREN 3) project. The aim of the project is to combine national research and education networks in Central Asia into unified regional network and to give them high speed Internet access to the European research and education network, to contribute to the growth of information exchange with the European partners. Implementation of two previous phases of CAREN project carried out by financial contributions of members of the Kyrgyz Research and Education Network Association, the 3rd phase of the project will be funded by them as well.
