

On November 17, 2015 Committee of the Parliament of the Kyrgyz Republic on social affairs, education, science, culture and health approved the agreement between Kyrgyzstan and the European Union on "Central Asian Research and Education Network" project.

The purpose of the program is to combine national research and education networks in Central Asia into one network and provide access to pan-European research and education network (GEANT).

During the implementation of CAREN project universities, schools, libraries of the Kyrgyz Republic and Central Asian countries were provided with high-speed Internet and had access to research and education GEANT network. Since 2010 KRENA participates in the implementation of the CAREN project in Kyrgyzstan.
